EXPERIENCE

Programmer Analyst Trainee

Cognizant Technology Solutions Pvt. Ltd.

📅 Nov 2024 – Present

📍 Chennai, India

- Developed and maintained Java backend components for web applications, ensuring efficient and scalable solutions.
- Enhanced the client application by implementing bulk upload functionality, resulting in a 90% reduction in user effort and time for uploading large amounts of information.
- Handling API for bulk data transfer and process, working on No-SQL database to create Lag free response to User interface and Downstream data consumers.
- Integrated database systems, such as MySQL using JDBC and Hibernate ORM, ensuring data persistence and efficient querying.
- Resolved a long-standing issue with the inactive stage environment, leading to its shutdown by the client for cost optimization.
- Worked on analyzing Java based Algorithms and programs to identify the issue and provide best possible solution.
- Deployed Java web applications on Amazon Web Services (AWS) cloud infrastructure, leveraging various AWS services for efficient and scalable deployments.
- Participated in agile development processes, including sprint planning, daily stand-ups, and retrospectives.

SDE Intern

VVDN Technologies Pvt Ltd

📅 Jan 2024 – Oct 2024

📍 Bhubaneswar, Orissa

- Nurtured the fundamentals of Java EE web application development by successfully developing a comprehensive project using Java, Spring Boot as backend technologies and React as frontend.
- Developed 3 microservices, created docker images and deployed them in AWS ECS fargate.

TECHNICAL SKILLS

- **Programming Languages:** Java (8+), JavaScript, TypeScript, Python, HTML, CSS, Shell Scripting.
- **Frameworks & Libraries:** Spring Boot, Spring Security, Spring Data JPA, Spring Cloud, Hibernate, ReactJS, NodeJS, ExpressJS, Redux, Bootstrap, Material UI.
- **Databases:** MySQL, MongoDB.
- **Cloud & DevOps:** AWS (EC2, S3, RDS, CodePipeline), Azure, Docker, Kubernetes, Jenkins, Ansible, Terraform, Git, GitHub, Gitlab, Maven.
- **Testing & Documentation:** JUnit, Mockito, Swagger/OpenAPI, Postman.
- **Data & Machine Learning:** NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch, Keras, Generative AI, LLMs, Diffusion Models, Github Copilot.
- **Developer Tools:** IntelliJ IDEA, Eclipse, VS Code.

EDUCATION

B.Tech. (IT) - 8.9 CGPA

Odisha University of Technology and Research

📅 2021 – 2024

📍 Bhubaneswar, Odisha

Diploma(CSE) - 90.1%

Bhubanananda Odisha School of Engineering

📅 2021

📍 Cuttack, Odisha

PROJECTS

Kotak Life – Optimus

- **ReactJS | Javascript | Bootstrap | TypeScript | NodeJs | Spring Boot | Spring Security | Confluent Kafka | JUnit | Mockito | Gradle | MongoDB**
- Contributed to a scalable enterprise insurance platform enabling policy onboarding, premium payments, claims, and servicing workflows.
- Implemented secure RESTful microservices with Spring Boot and integrated RBAC authentication using Spring Security for customer and agent operations.
- Developed high-performance UI features and global state management using Angular + NgRx improving response efficiency and user experience.
- Enabled asynchronous communication for real-time policy events using Confluent Kafka improving system reliability across distributed services.
- Automated test coverage using JUnit Mockito, reducing regressions by 30% and improving maintainability.
- Managed cloud deployment scaling using AWS EC2, Elastic Beanstalk, CodeDeploy, S3, Route 53, DocumentDB, and API Gateway.

Employee Lifecycle Management & Knowledge Continuity System

- **ReactJS | JavaScript | TypeScript | Bootstrap | NodeJS | Spring Boot | Spring Security | JUnit | Mockito | Maven | MySQL**
- Built a secure enterprise platform automating employee onboarding, offboarding, access provisioning, and knowledge continuity using Spring Boot, Spring Security (RBAC), Confluent Kafka, and MySQL—enabling real-time workflow execution and resilient distributed communication.
- Developed reliable RESTful microservices with standardized logging, exception handling, and JUnit/Mockito test coverage; built ReactJS dashboards for HR and managers to track lifecycle progress, asset management, and approvals, improving productivity and transition efficiency.
