Tapaswini Haldar

Software Engineer @ Cognizant | 500+ DSA @ LeetCode + GFG
| Java | Spring Boot | Microservices | AWS | AI/ML | Python | TensorFlow | Full Stack Developer
Cuttack, Odisha, India

Summary

I'm a Software Engineer with hands-on experience in developing scalable cloud-based applications using Java, Spring Boot, and AWS. I'm proficient in designing microservices, REST APIs, and database solutions with Hibernate and MySQL.

I've built an AI-based product recommendation system by integrating machine learning pipelines deployed through Spring Boot microservices. Skilled in Python, TensorFlow, and Machine Learning fundamentals, I've also solved 500+ DSA problems on LeetCode and GeeksforGeeks, strengthening my problem-solving abilities.

Passionate about combining backend engineering and AI/ML, I thrive on creating intelligent, high-performance systems that solve real-world challenges and drive innovation.

Experience

Cognizant
Software Engineer
November 2024 - Present (1 year 4 months)
Chennai, Tamil Nadu, India

VVDN Technologies
SDE Intern
May 2024 - September 2024 (5 months)
Bhubaneswar, Odisha, India

Codechef OUTR BBSR Chapter
Technical Team Member
March 2023 - June 2024 (1 year 4 months)

Zairza

Member

January 2022 - May 2024 (2 years 5 months)

Bhubaneswar, Odisha, India

PrepInsta

Data Analytics Intern

January 2024 - April 2024 (4 months)

- Perform data cleaning and preprocessing tasks to ensure accuracy and consistency of datasets.
- Utilize statistical techniques and data visualization tools to analyze and interpret complex data sets.
- Assist in developing predictive models and algorithms to identify patterns and trends for actionable insights.
- Collaborate with cross-functional teams to communicate findings and recommendations effectively, contributing to data-driven decision-making processes.

APEX BYTE

Data Analytics Intern

January 2024 - March 2024 (3 months)

remote

Spectrum

Member

April 2021 - February 2024 (2 years 11 months)

Bhubaneswar, Odisha, India

AcmeGrade

Cloud SW Intern

June 2023 - July 2023 (2 months)

- Developed and deployed a cloud-based application using AWS services, leading to a significant 30% decrease in application response time
- Utilized AWS Lambda, API Gateway, and S3 to create and implement an architecture that improved overall application performance
- Strengthened cloud security measures by successfully integrating multi-factor authentication (MFA) to protect critical AWS services

HDLC Info Technologies

Machine Learning Intern

June 2023 - July 2023 (2 months)

- Collaborated with cross-functional teams to analyze, interpret, and present data-driven insights
- Supported decision-making processes by presenting data-driven insights to stakeholders.

Salesforce

Salesforce Developer

May 2023 - July 2023 (3 months)

Successfully completed Salesforce developer virtual internship by completing Salesforce Trailhead Modules including -

- 1.Salesforce Fundamentals
- 2.Organizational Setup
- 3.Relationship & Process Automation
- 4.Types Of Flows & Security
- 5.Apex, Testing & Debugging
- 6.VS Code Setup & CLI Setup
- 7.Lightning Web Components (LWC) & API
- 8.Developer Super Set

Chegg India

Subject Matter Expert

April 2022 - December 2022 (9 months)

Solved 200+ questions related to DSA and CS fundamentals.
Over 50+ upvotes from students.

Hacktoberfest

Open Source Contributor

October 2022 - November 2022 (2 months)

Brightlanes Technologies Pvt. Ltd.

SDE Intern

March 2022 - May 2022 (3 months)

Delhi, India

The Sparks Foundation

Android App Development

June 2021 - July 2021 (2 months)

Skills: Android Developer

Education

Odisha University of Technology and Research

Bachelor of Technology - BTech, Information Technology · (November 2021 - June 2024)

Bhubanananda Odisha School of Engineering (Bose), Cuttack

Technical Diploma, Computer Science · (January 2018 - August 2021)
